PATIENT FORM TO OPT OUT OF CARE.DATA

Care.data. How information about you helps us to provide better care.

Information about you and the care you receive is shared, in a secure system, by healthcare staff to support your treatment and care. NHS England would like to link information from all the different places where you receive care, such as your GP, hospital and community service, to help them provide a full picture. This will allow them to compare the care you received in one area against the care you received in another, so that they can see what worked best. A leaflet “How information about you helps us provide better care” is available in the waiting room or at reception.

If you wish to opt out of this information sharing then please tick here ☐

First names of patient
